KitchenConnect

Weekly Sprints - Version 2

The user stories are based on version 2 of the user story document.

1) Week 1 (13th May - 19th May)
   In this sprint, we will be creating signup and login pages for both the customers and the tiffin providers. We will be implementing the following user stories in this sprint:
   - USP-001
   - USP-002
   - USC-001
   - USC-002

2) Week 2 (20th May - 26th May)
   In this sprint, we will be creating the landing pages for both the customers and the tiffin providers. We will also create functionality for providers to add and edit tiffins. We will be implementing the following user stories in this sprint:
   - USP-003
   - USP-004
   - USP-005
   - USP-006
   - USC-003
   - USC-004

3) Week 3 (27th May - 2nd June)
   In this sprint, we will allow customers to browse various tiffins and sort and filter. For providers, they could delete or deactivate their tiffins and also create menu for their tiffins. We will be implementing the following user stories in this sprint:
   - USP-007
   - USP-008
   - USP-009
   - USP-010
   - USC-005
   - USC-006
   - USC-007
   - USC-008

4) Week 4 (3rd June - 9th June) and Week 5 (10th June - 16th June)
   In this sprint, we will be introducing the subscription feature and order feature, allowing consumers to subscribe to tiffin services and order them and allowing tiffin providers to manage their subscriptions. The tiffin providers would get to know how many orders they have for a day and of what type. It will be implemented using sockets. We will also allow tiffin providers and customers to browse the menu. We will be implementing the following user stories in this sprint:
   - USP-011
   - USP-012
   - USP-013
   - USP-014
   - USP-015
   - USP-016
   - USP-017
   - USC-009
   - USC-010
   - USC-011
   - USC-012
   - USC-013

5) Week 6 (17th June - 23rd June)

In this sprint, we will be implementing features such as edit profile, edit prices, edit meals and cancel subscription. This will allow tiffin providers to edit menu and prices and for consumers to cancel subscriptions. Both parties could also edit their profiles. We will be implementing the following user stories in this sprint:

- USP–018
- USP-019
- USP-020
- USP-021
- USC-014
- USC-015
- USC-016
- USC-017
- USC-018

6) Week 7 (24th June - 30th June)

In this sprint, we will be introducing the history feature, allowing the consumer and provider to see their previous history. We will be implementing the following user stories in this sprint:

- USP-022
- USP-023
- USC-019
- USC-020

7) Week 8 (1st July - 7th July)

In this sprint, we will be introducing the payment feature allowing consumers to make payments and tiffin providers to receive payments. It will be based on an OTP system so payment only gets deducted for delivered tiffins. We will be implementing the following user stories in this sprint:

- USP-024
- USP-025
- USC-021
- USC-022
- USC-023
- USC-024

8) Week 9 (8th July - 14th July)

In this sprint we will introduce the rating and review features allowing consumer to rate tiffin services and individual tiffins and also provide reviews. The provider could see the ratings ands reviews and get insights about his performance.

- USP-026
- USP-027
- USC-025

9) Week 10 (15th July - 21st July)

In this sprint we will introduce the delivery feature and integrate the application with Google Maps. It'll allow auto detection of location and also ease delivery process for providers.

- USP-028
- USP-029
- USC-026
- USC-027
- USC-028
